

Wilhelm and Else Heraeus Physics Dissertation Prize Colloquium 2022

Mathias Busch

Investigating the link between microplastic exposure and intestinal inflammation

14:15

Michael Stumpf

Optimized laser-induced electron injection into a Plasma Wakefield Accelerator

15:00

Intermission

15:45

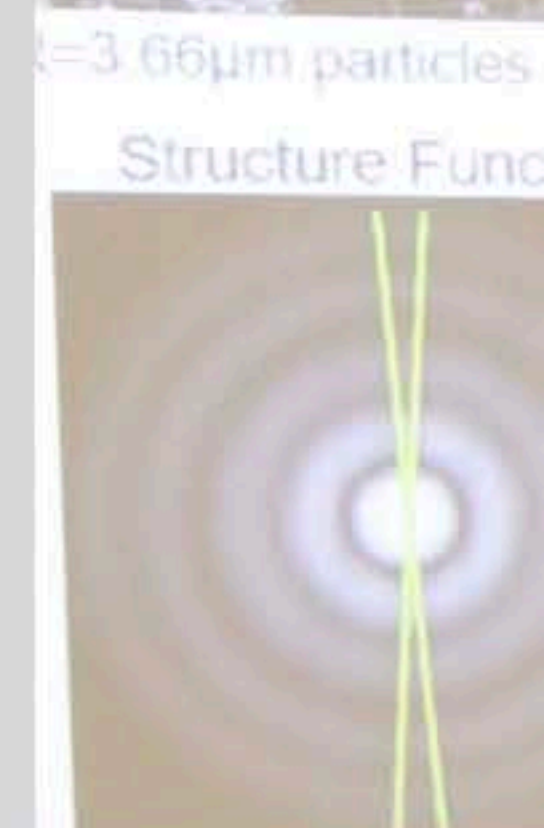

Alex Kääpä

The Galactic magnetic field and its effects on the propagation of Galactic and extragalactic cosmic rays

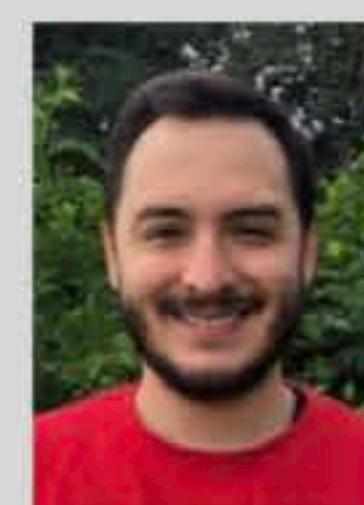

16:00

Manuel Escobedo

Random and directed motion detected by indirect imaging techniques

16:45
